

WOULD BAR LEPER FROM THE STATE

Attorney-General of North Carolina Says Early Cannot Return—Will Quarantine Wife.

The leper in quarantine in District of Columbia.

[Special to The Times-Dispatch.]
RALEIGH, N. C., September 3.—Acting in accordance with advice from the Assistant Attorney-General Hayden Clement, North Carolina will decline to receive from the Federal authorities J. R. Early, the leper in the District of Columbia, he having gone from Lynn, N. C., to Washington to look after an application he had pending for the pension for service in the United States Army, and his disease found to be leprosy by government experts there. And if the wife and child of Early, who are now with him, return to their home at Lynn, they must be quarantined indefinitely by the health board of that county.

In his opinion the attorney-general says there would be danger to people on the trip whether by rail or through the country, that the disease became apparent in Washington and that North Carolina is not called upon to care for citizens ill in another State or in the United States outside of this State; that there are no provisions for a case of this kind in the charity work of the State, and that it is the duty of the Federal government to care for the leper.

With reference to the wife and child of the leper, who have gone to Washington, in the interest of the husband and father, Mr. Clement advises the State Board of Health that the board should write to her in Washington and acquaint her with the fact that if she returns to North Carolina she will be quarantined, and that the county authorities, this he asks should be done not to prevent her return, but in fairness to her, in order that she may know what to expect should she decide to return.

Washington advises indicate that the government will allow Early a pension and keep him in quarantine in the District of Columbia.

Benjamin Bros. are manufacturers of agents in Sydney, Australia. Greenhouse is H. O. Greenhouse, the exporter of 250 Samsone Street, San Francisco. Concerning the report that cures for Bright's Disease and Diabetes have been discovered in San Francisco, Benjamin Bros. wrote Greenhouse to send a small order, and if it really did the business they would send an important order. The trial lot was sent.

The above cable is the reply. It did the business. They couldn't wait for a letter, but cabled. Translated, it calls for the immediate shipment of nearly \$400 worth of Fulton's Compound for Bright's Disease and Diabetes. The whole world is waiting to the test of the discovery. You don't have to cable 6,000 miles. It's right at your doors. Send for literature.

Tendered Pastorate of Tabernacle Baptist Church, Raleigh.

[Special to The Times-Dispatch.]

The Rev. Mr. Christie is now pastor of Tabernacle Church, Valdosta, Ga., and is reputed to be one of the most able and eloquent Baptist ministers in that State. He was in Raleigh recently and delivered two sermons for the Tabernacle congregation, every one being delighted with him. He is a native of Halifax county, this State, and Mrs. Christie is a native of Pasquotank county. He was at one time pastor of Spurgeon Memorial Baptist Church, Norfolk, and is graduate of Richmond College and the Southern Baptist Theological Seminary. Indications are that he will accept the call to Raleigh.

[Special to The Times-Dispatch.]

By rates it is: Whites, \$2,108,119; colored, \$541,695. The American Tobacco Company here shows a decrease of nearly \$250,000.
